

DCW3000 - Belt-Driven Yanmar Diesel – Electric Start

Manufactured for professional users, the DCW3000 is a heavy duty portable diesel engine driven pressure washer. This unit is powered by the Yanmar L100N series diesel engine. Yanmar is a world renowned engine manufacturer producing innovative products for both the industrial and agricultural sectors. Aquawash have selected this engine and pump combination for its outstanding performance & durability to tackle the toughest cleaning jobs. This unit offers both smooth running and substantial savings on fuel costs.

For total peace of mind, all components have been carefully selected to ensure ultra reliability and many hours of trouble free operation.

Engine		Pump	
Make	Yanmar	Make	Annovi Reverberi
Model	L100N5	Model	RW15.20
Power	10hp Net @ 3600rpm	Flow	15 Litres
Fuel Capacity	4.7 Litres	Pressure	200 Bar 3000psi
Fuel Type	Diesel	Material	Ceramic Plungers & Brass Manifold
Starting	Electric & Recoil	Speed	1450rpm
Electric System	12 Volt	Drive	HTD Synchronous Belt System

Standard Equipment:

High Quality 900mm stainless steel lance with wash gun & adjustable nozzle holder, 9m twin wire rubber high pressure hose fitted with quick release ball coupling, Return to tank bypass unloader valve with chemical injector, 2.5m Suction hose with dual filtration system.

Frame:

Powder coated heavy duty steel trolley frame with 4mm steel base plate, large 250mm (10") wheels, Dual Element vibration system.

Dimensions: L x W x H (mm) 1260 x 660 x 635 - Weight 115kg
